

Other Conditions Applying to the 2011
Paid Personal Use Fuelwood Permit
Tusayan Ranger District, Kaibab National Forest

1. This permit is for the removal of **dead wood only** from within the permit area shown on the attached map. Within this area firewood cannot be removed from administrative sites and developed recreation sites including developed campgrounds, picnic areas, trailheads and interpretive sites. Commercial timber sale areas and other contract areas are also excluded from cutting under this permit.
2. Dead and **down** (on the ground) wood of any species may be removed. The removal of **standing**, dead trees is limited by species and size according to the following rules (note that diameters are measured at 4 ½ feet above the ground):

Ponderosa Pine – Only dead, standing trees less than 12 inches in diameter (38 inches in circumference) or less than 15 feet in height may be removed.

Pinyon Pine – Only dead, standing trees less than 10 inches in diameter (32 inches in circumference) or less than 12 feet in height may be removed.

Gambel's Oak – Only dead, standing trees less than 8 inches in diameter (25 inches in circumference) or 12 feet in height may be removed. In addition, **dead standing oak may only be removed between June 1 and September 30.**

Juniper – There are no size restrictions on dead, standing juniper.

For all species, dead limbs may not be removed from live trees. Trees must be completely dead with no live foliage.

3. Stump height for standing trees cut must be 6 (six) inches or less.
4. Trees with signs, tags, or paint may not be removed.
5. Any standing, dead tree within 500 feet of a reservoir or stock tank may not be removed.
6. Any standing, dead tree with 75 feet of a paved public road may not be removed.
7. This permit is not transferable. You must be present when the wood is being cut unless you have authorized someone to cut your wood for you. This authorization must be in writing on the permit and the Forest Service must be informed.
8. **Off road travel will be prohibited in most areas once Tusayan's Travel Management (TMR) policy is implemented.** Contact the Tusayan Ranger District office at (928)638-2443 on **August 1st** for an update on the status of TMR implementation and to obtain a copy of the Motor Vehicle Use Map (MVUM). Prior to TMR implementation, do not drive off of existing roads when soils are wet and when damage may occur.
9. Your power saw must be equipped with a .023 stainless steel spark arrestor screen.
10. **The removal record on your permit must be filled out and fuelwood tags attached prior to transporting the wood from the location where it was cut. See instructions for use of fuelwood tags.**
11. Read the conditions of your permit carefully. If you have questions, please call the Tusayan Ranger District at (928)638-2443 for assistance prior to gathering firewood. Failure to adhere to any of these requirements may result in loss of your wood and/or permit, and a fine of up to \$5,000.

A cord of wood measures 8 feet long, 4 feet high, and 4 feet wide.
